

# EARTHENERGY™

## Tolvaddon Energy Park

This development of 19 energy efficient office units has been built on an old mining area bought by the South West Regional Development Agency (SWRDA). The project was funded by a combination of £1.8 million of objective one funding and £2.2 million from SWRDA. The individual office units range in size from 753 sq ft to 5000 sq ft.

The fundamental aim of the park was to minimise energy usage through modern, green minded building techniques. As such the buildings have been enhanced to a higher than normal standard of insulation.

<b>Ground Loop</b>	<b><i>42 x 70 metre boreholes</i></b>
<b>Heat Pump</b>	<b><i>Kensa</i></b>
<b>Distribution System</b>	<b><i>Wet Underfloor Heating</i></b>
<b>Client</b>	<b><i>South West Regional Development Agency</i></b>
<b>Mechanical &amp; Electrical</b>	<b><i>EIC Ltd</i></b>
<b>Commissioned</b>	<b><i>December 2001</i></b>
